

Virginia Board of Workforce Development

Performance and Accountability Committee

The Performance and Accountability Committee is established to coordinate with the Virginia Employment Commission (VEC), State Council of Higher Education for Virginia, and Council for Virginia's Future to develop metrics and measurements for publishing comprehensive workforce score cards and other longitudinal data that will enable the Virginia Workforce System to measure comprehensive accountability and performance.

The Performance and Accountability Committee will, in consultation with other committees and the Board, recommend policy, budget, and administrative action to the Governor to ensure that Virginia can measure what matters for business, job seekers, and government.

The committee is charged with ensuring that all programs within Virginia's publicly funded education and workforce system produce strong return on investment.

This committee will act as a resource to other committees assisting in the establishment of standards and metrics to assess and continuously improve program and system performance. The committee will be particularly engaged in cross-agency, cross-program performance metrics, in identifying common performance metrics, and in ensuring that decisions made by the Workforce Board are informed by sound data and analysis.

Specific tasks, required by statute for discussion and relevant to this committee, include evaluating the extent to which the state's workforce development programs emphasize education and training opportunities that align with employers' workforce needs and labor market statistics; conducting a review of budgets, which shall be submitted annually to the Board by each agency conducting federal and state funded career and technical and adult education and workforce development programs; defining the Board's role in certifying WIOA training providers; s, and recommending structure and content of the annual report to the Governor by the Board prior to report development. This committee may also wish to provide metrics for evaluation of the work of the Board and its staff.

Committee Chair: **Brett Vassey**
President and CEO
Virginia Manufacturers Association

Committee Vice-Chair: **Mark Dreyfus, President**
ECPI University
