WORKFORCE INVESTMENT ACT

VIRGINIA WORKFORCE LETTER (VWL) #14-01

TO: LOCAL WORKFORCE INVESTMENT BOARDS
FROM: WORKFORCE DEVELOPMENT SERVICES
SUBJECT: WIA Participant Activity Code Definitions, Projected Durations
and Use Limitations
Replaces: VWL 11-02
EFFECTIVE DATE: December 1, 2014

Purpose:

To provide guidance to the local workforce areas and their service providers on the definitions of activities and services included in the Virginia Workforce Connection (VaWC); to initiate time or use limitations on those codes; and to eliminate unused or obsolete activity codes.

This VWL is revised to include definitions and codes for attainment of the Career Readiness Certificate (CRC) for Adult/Dislocated Worker and Youth participants. It has also been revised to define the framework of the Ten Elements of the Youth Program. Two codes have been added to track the provision of Workforce Information Services for Adults, Dislocated Workers and Youth.

Several additional duplicated or outdated codes have been eliminated in this Revision. Please note these eliminated codes at the end of this document.

A. Background:

DOL's November, 2010 review of Virginia's Workforce System (released January, 2011), included a finding that Adult and Dislocated Worker participants are not exited in accordance with ETA guidance. This VWL is intended to address this finding by providing both definitions for the WIA activity codes and provide guidance on their appropriate use. This VWL is meant to further refine the accuracy and utilization of activity codes in serving WIA participants.

B. Discussion:

Workforce Development Services developed a list of valid activity codes, definitions for each of the codes and “limitations” for the use of each code. The standardized definitions assist the local areas in accurately recording participant activities in WIA.

The purpose of defining limitations is not to restrict the local areas in their ability to serve participants, but to ensure that events related to those activities are recorded in the proper sequence and according to DOL policies and guidelines for accuracy and timeliness.

A major concern of the WIA program is the accuracy of services reported in the Workforce Investment Act Standardized Record Data (WIASRD) and other projects that have been noted by the Government Accountability Office (GAO), U.S. Department of Labor’s Employment and Training Administration Office of the Inspector General and several data initiatives at the State level. Further, the Virginia Board of Workforce Development has increased its involvement in WIA-related accountability issues.

C. Implementation

The attached list shows each valid participant activity code, defines the code and includes any limitation that govern the code’s use. For example, code 104, Job Search Workshop, is limited to 30 calendar days. A “limitation” does not mean a code cannot be used more than once per participant, nor does it mean an activity cannot be extended for a participant based upon the participant’s service plan.

A list of inactive and obsolete codes will appear at the end of this document for reference, as these services may appear within previous participant records in the VaWC. They are not valid for current or future use.

D. Effective Date

This VWL (14-01) is effective December 1, 2014.

E. Required Action

Local boards are responsible for ensuring that all WIA service provider/case management staff is familiar with this information.

What is “Limitation” in the Activity Code Definitions?

The term “Limitation” refers to one or both of the following circumstances for all Activity Codes:

- Time Limit for an Activity Code – a limited period of time that an activity code may be active (“open”) in VaWC (“VOS”). It does not refer to the entire duration of the activity itself. For example, Activity Code 213, Mentorship, can be entered initially into VaWC for a period beginning on a certain date with an ending date as much as 30 calendar days later, even if the Mentoring activity lasts longer than 30 days. At the end of the *initial* 30 day period, the case is to be reviewed and the projected end date **may be extended** an additional 30 days, or fewer as appropriate, if the participant is still involved in that activity. The review and update of this activity code’s projected end date continues for as long as it is applicable and appropriately documented for the participant’s situation. **All extensions must be documented in VaWC Case Notes and in the participant’s file.**
- Restriction of Use of an Activity Code - Certain activity codes can be used for only a particular segment of persons, specific program participants or only under certain circumstances. For example, Activity Code 181, Transportation Assistance, may be used only for persons enrolled in WIA Title 1B activities. This code may not be used for persons in “applicant” status. Another example - only youth should be enrolled in 400 level services.
 - The purpose of the service limitations listed within this document is to prevent services from being projected indefinitely into the future and used to prevent the record from exiting.
 - The services listed in this document are staff assisted activities and it is expected that the staff are actively engaged in assisting the participant unless it is otherwise listed within the definition of that specific activity. Service codes are not to be used simply to prevent the exit or keep a record open.

001 – Hold, waiting for activities or health/medical – This code is used when the participant has a planned, **temporary** break in training with a planned date of re-entry as documented in the ISS/IEP. Holding **may not** exceed 90 days except when there is a regularly scheduled break in training that exceeds the 90-day limit. Examples include summer recess, semester breaks or under documented extenuating circumstances from a third party based on the participant’s situation such as being under medical care, class schedule change, etc. This service will prevent the soft exit from occurring and should be used only for one of the following conditions:

- Delay before the beginning of training;
- Health/medical condition or providing care for a family member with a health/medical condition; and
- Temporary move from the area that prevents the person from participating in services, i.e. National Guard or other related military Services. (**Training and Employment Guidance Letter No. 17-05**).

The participant folder and VaWC case notes should contain documentation to support the holding status.

Limitation: May not exceed 90 calendar days and must be documented. Any extension(s) must be fully documented.

Staff-Assisted Core Services

101 – Orientation – Information provided on services that are available through the One-Stop service centers and other WIA service providers.

If this Rapid Response activity occurred prior to WIA eligibility, the service can be recorded after the WIA participation service has been entered and the date of this Rapid response activity can be the same as the Participation date.

Limitation: Not to exceed 30 calendar days.

131 – Testing/background check as required by employer – a service provided on behalf of a participant as a condition of consideration for employment. This service could include pre-employment testing and background checks that may be required by an employer.

153 - Job Search/Placement Assistance, including Career Coaching – services provided to a participant looking for work. Career coaching includes review of employment goals and plans to achieve those goals and the impact on the participant’s long-term employment objectives.

NOTE: This is a staff assisted activity and it is expected that the staff are engaged in assisting the participant, not simply checking on the individual’s self-directed job search. This Service code is not to be used simply to prevent the record from Exiting.

Limitation: Not to exceed 30 calendar days.

Supportive services for adults and dislocated workers include services such as transportation, child care, dependent care, housing and needs-related payments necessary to participate in WIA activities.

Local Boards, in consultation with the One-Stop partners and other community service providers, must develop a policy on supportive services that ensures resource and service coordination in the local area. . To maintain consistency, the limitation placed on this service matches the other assessment activities listed in this document. Although this service lists a limitation not to exceed calendar 30 days, it is assumed the CRC activity will be keyed into the system once it is attained, and therefore the service should have the same start and end dates.

It is also important to note that the CRC has a lifespan of five years.
